To Whom It May Concern

I would like to give feedback for Manatec who are providing training to my staff through the Apprentice programme.

I have worked with Manatec for many years and have always found them to be very professional and supportive to the staff and to me as Manager.

The Assessor, Sue Gibbs is amazing. She is very supportive to the staff and to me as the Manager. If there is something that they do not understand or they are struggling she will support them to ensure they understand and do what they need to, to complete their programmes.

I would have no reservations about recommending Manatec to any other organisations.

Should you require any further information, do not hesitate to contact me.

Regards

Di Vale
